

Dear Commissioners: I respectfully request that you reconsider your proposed rulemaking to require all radio stations to retain a recording of all programs broadcast.

Those of us in small markets are very sensitive to our listener base, and here in Larry Bird's home town we do not air any vulgar or explicit language so the FCC purpose would not be served by recording our programming.

Recording all of our programming would also impose a very significant financial burdeon on our operations when the local economy has been down. Here in Orange Co. we had the state's highest unemployment rate (10%) as a result of the closing of five manufacturing plants and the loss of about 800 jobs in a county of just over 19,000.

We also have very limited space for storage of any more equipment.

Thanks for taking the time to review my comments.

Sincerely,

W.G. (Bill) Willis, Owner & GM
(812) 936-9450
